

Hurricane::DBo

```
classDiagram
    class Hurricane_DBo["Hurricane::DBo"]
    class Hurricane_DataBase["Hurricane::DataBase"]
    Hurricane_DataBase --|> Hurricane_DBo
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled "Hurricane::DataBase". A blue arrow points vertically upwards from this box to a white box at the top labeled "Hurricane::DBo". This indicates that "Hurricane::DataBase" is a base class and "Hurricane::DBo" is a derived class.

Hurricane::DataBase
