About froglogic

- Headquarters in Hamburg, Germany
- Established in 2003 by Trolltech/KDE developers
- Large and growing customer base in USA, Europe and Asia
- Steady growth in revenue and profitable since 2003
- More than 1300 companies using Squish today, including:

froglogic Squish

- Cross-platform, cross-technology GUI Test Automation Tool
- Cross platform: works on Windows, Linux, Unix, Mac OS X and embedded/mobile platforms (Qt-based, Android, iOS, etc.)
- GUI toolkits it tests:
 - Qt + QML + WebKit, Tk, Java/Swing, Java/SWT
 - Native: Windows, Mac OS X and iOS
 - Webpages (stand-alone or embedded in another toolkit)

We are hiring!

Not free software or open source

But

- Companies get a copy of source after buying
(free 30 day trial!)
- Free KDE-optimized binary
- Free educational license for students/etc.
